

ALICE IN APPLING COUNTY

2021 Point-in-Time Data

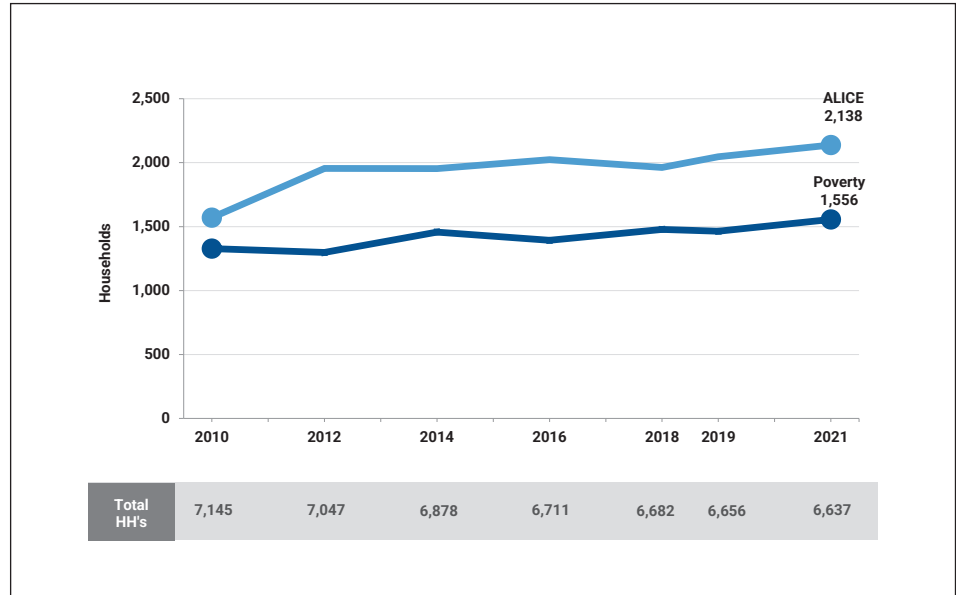

Population: 18,509 • **Number of Households:** 6,637 (0% change from 2019)
Median Household Income: \$39,588 (state average: \$66,559)
Labor Force Participation Rate: 53.4% (state average: 62.9%)
ALICE Households: 32% (state average: 34%) • **Households in Poverty:** 23% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 3,511 households in Appling County were below the ALICE Threshold; in 2021 this number changed to 3,694.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Appling County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

ALICE IN BARTOW COUNTY

2021 Point-in-Time Data

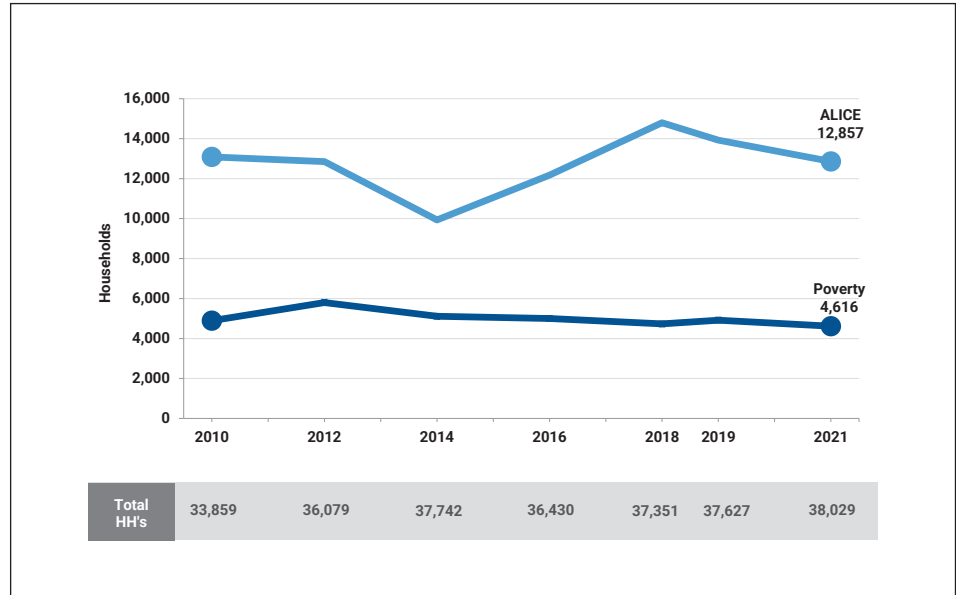

Population: 110,843 • **Number of Households:** 38,029 (1% change from 2019)
Median Household Income: \$71,523 (state average: \$66,559)
Labor Force Participation Rate: 60.7% (state average: 62.9%)
ALICE Households: 34% (state average: 34%) • **Households in Poverty:** 12% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mployed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 18,843 households in Bartow County were below the ALICE Threshold; in 2021 this number changed to 17,473.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Bartow County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Brooks County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Brooks County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

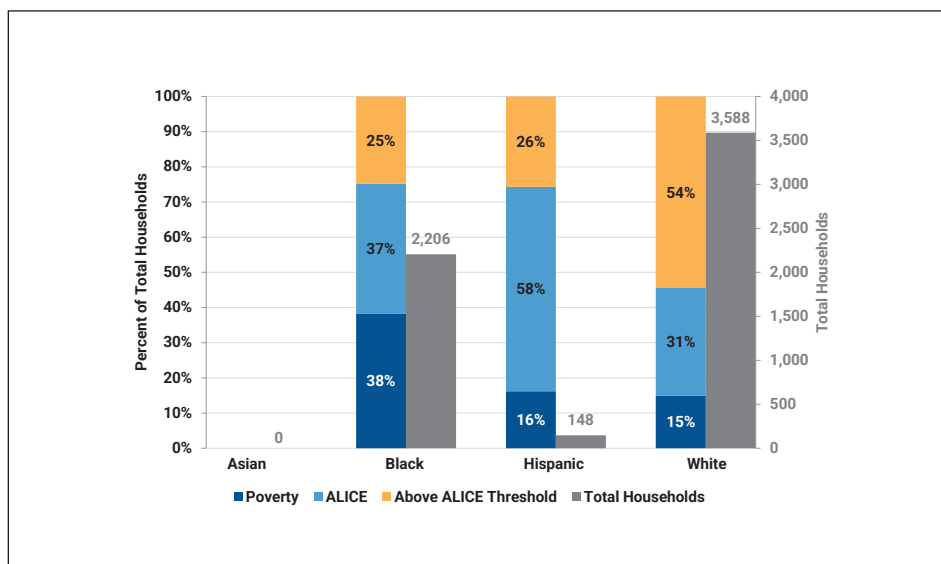

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

ALICE IN BRYAN COUNTY

2021 Point-in-Time Data

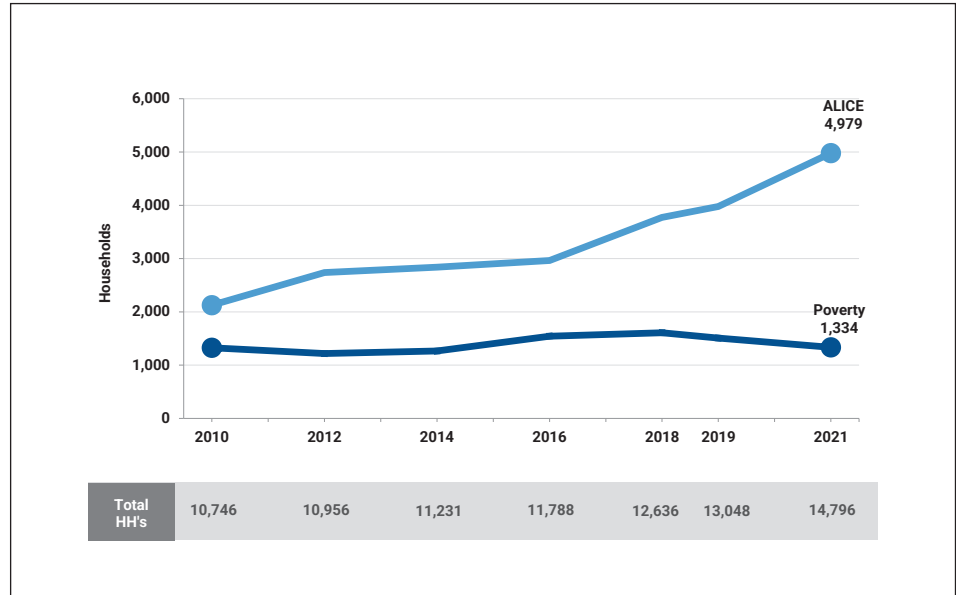

Population: 43,278 • **Number of Households:** 14,796 (13% change from 2019)
Median Household Income: \$81,032 (state average: \$66,559)
Labor Force Participation Rate: 69.4% (state average: 62.9%)
ALICE Households: 34% (state average: 34%) • **Households in Poverty:** 9% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 5,484 households in Bryan County were below the ALICE Threshold; in 2021 this number changed to 6,313.

ALICE IN CANDLER COUNTY

2021 Point-in-Time Data

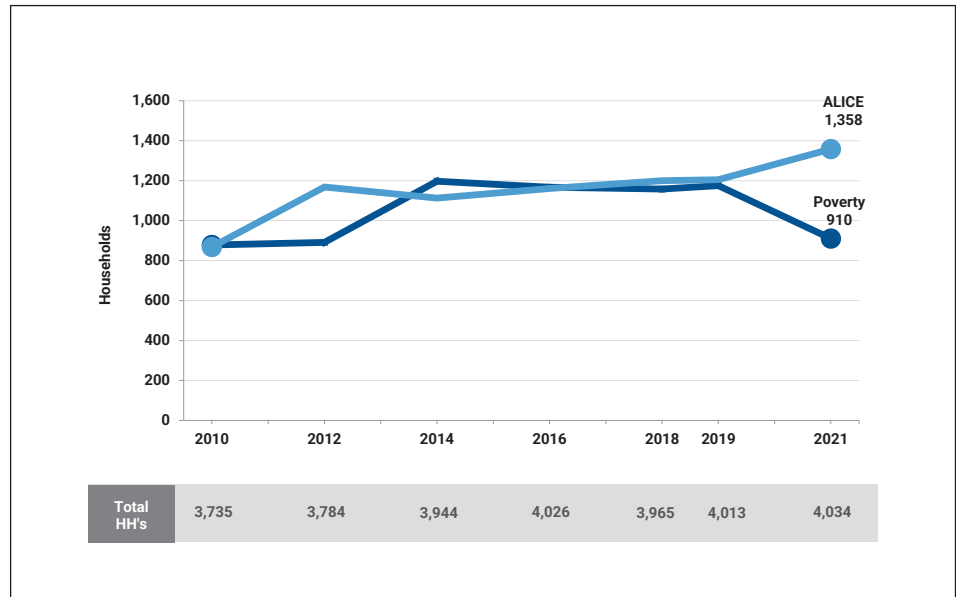

Population: 10,885 • **Number of Households:** 4,034 (1% change from 2019)
Median Household Income: \$36,763 (state average: \$66,559)
Labor Force Participation Rate: 54.8% (state average: 62.9%)
ALICE Households: 34% (state average: 34%) • **Households in Poverty:** 23% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 2,380 households in Candler County were below the ALICE Threshold; in 2021 this number changed to 2,268.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Candler County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Candler County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

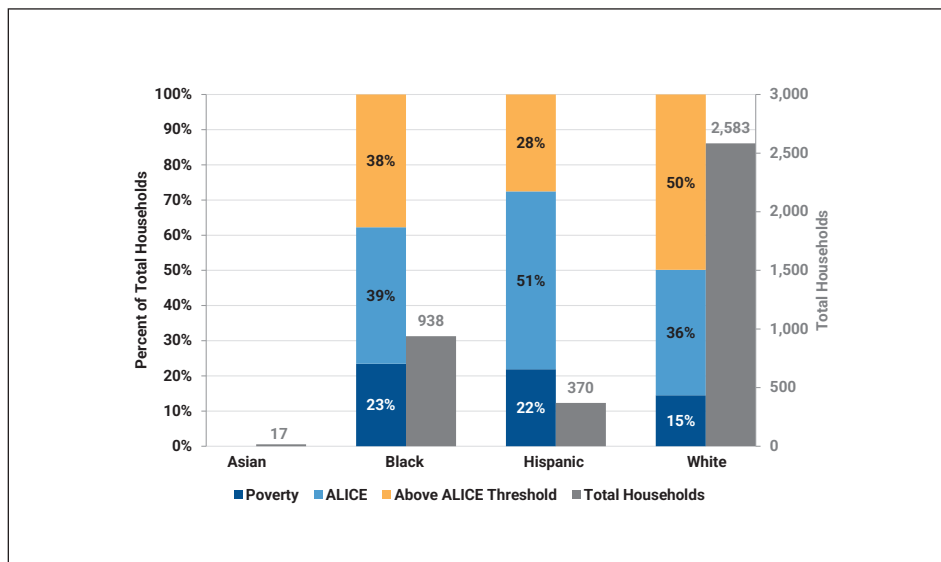

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

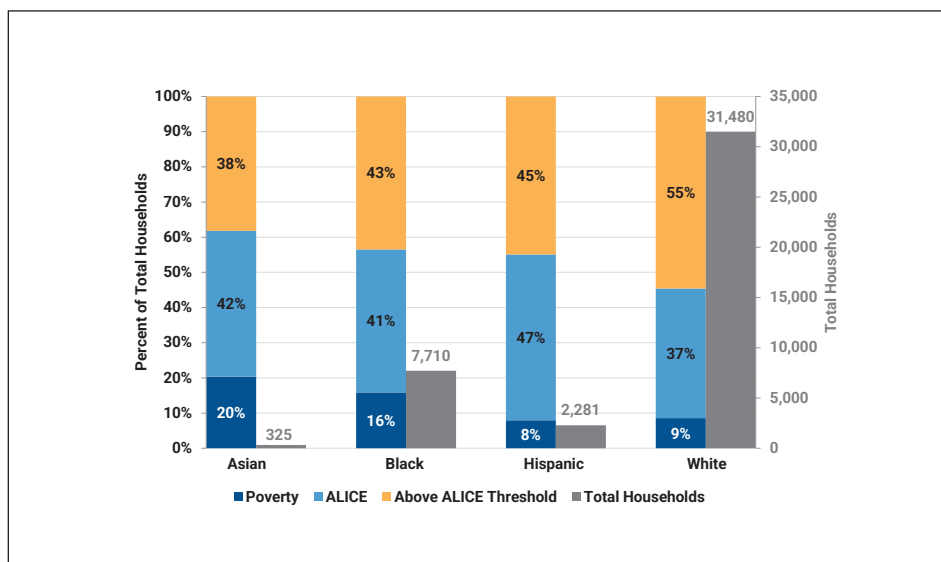

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Household Financial Status by Household Type, Chattooga County, 2021

Sources: ALICE Threshold, 2021; American Community Survey, 2021

Household Financial Status by Race/Ethnicity, Chattooga County, 2021

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

ALICE IN CHEROKEE COUNTY

2021 Point-in-Time Data

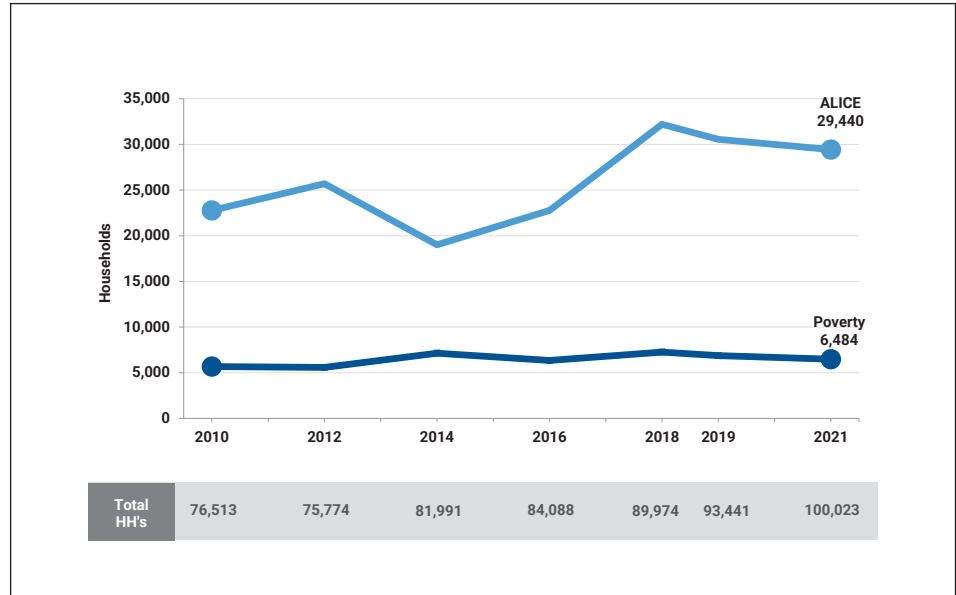

Population: 274,615 • **Number of Households:** 100,023 (7% change from 2019)
Median Household Income: \$96,267 (state average: \$66,559)
Labor Force Participation Rate: 70.1% (state average: 62.9%)
ALICE Households: 29% (state average: 34%) • **Households in Poverty:** 6% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 37,437 households in Cherokee County were below the ALICE Threshold; in 2021 this number changed to 35,924.

Households by Income, Cherokee County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Cherokee County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

ALICE IN COFFEE COUNTY

2021 Point-in-Time Data

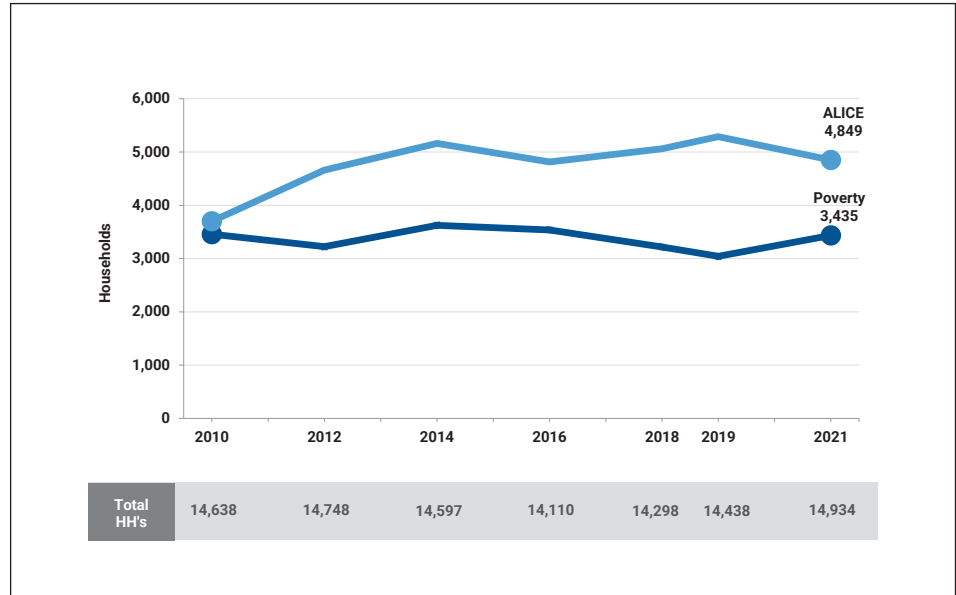

Population: 43,048 • **Number of Households:** 14,934 (3% change from 2019)
Median Household Income: \$44,450 (state average: \$66,559)
Labor Force Participation Rate: 54.4% (state average: 62.9%)
ALICE Households: 32% (state average: 34%) • **Households in Poverty:** 23% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 8,331 households in Coffee County were below the ALICE Threshold; in 2021 this number changed to 8,284.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Coffee County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Coffee County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

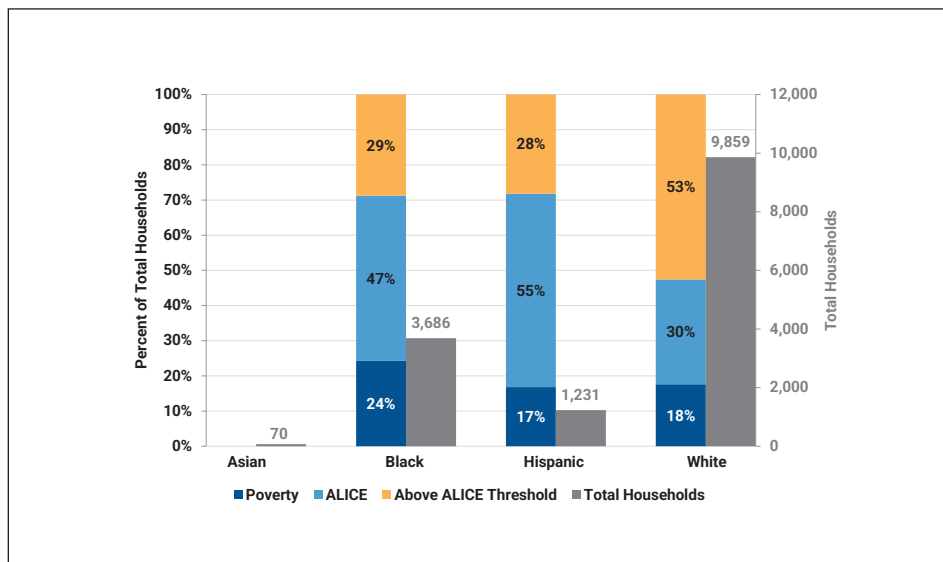

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

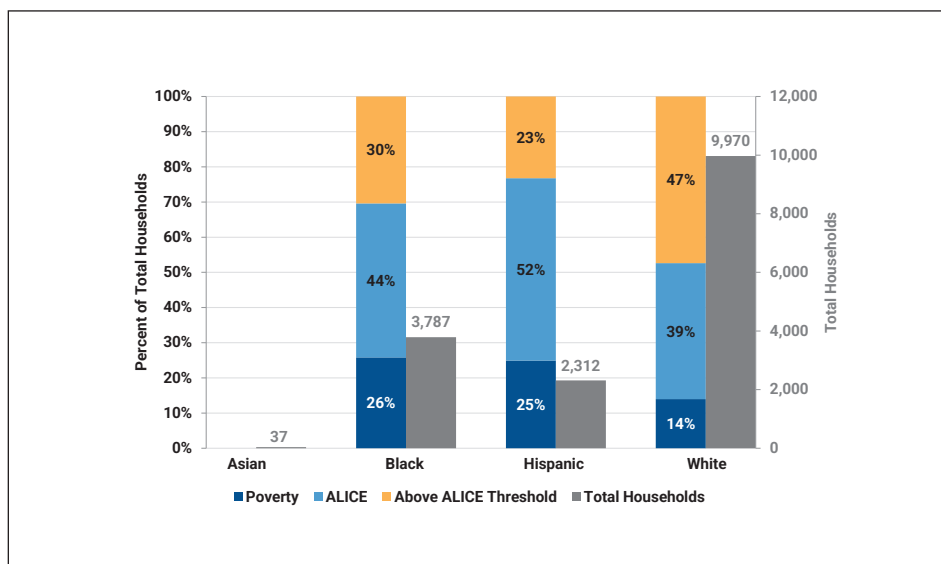

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Household Financial Status by Household Type, Crisp County, 2021

Sources: ALICE Threshold, 2021; American Community Survey, 2021

Household Financial Status by Race/Ethnicity, Crisp County, 2021

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

ALICE IN DADE COUNTY

2021 Point-in-Time Data

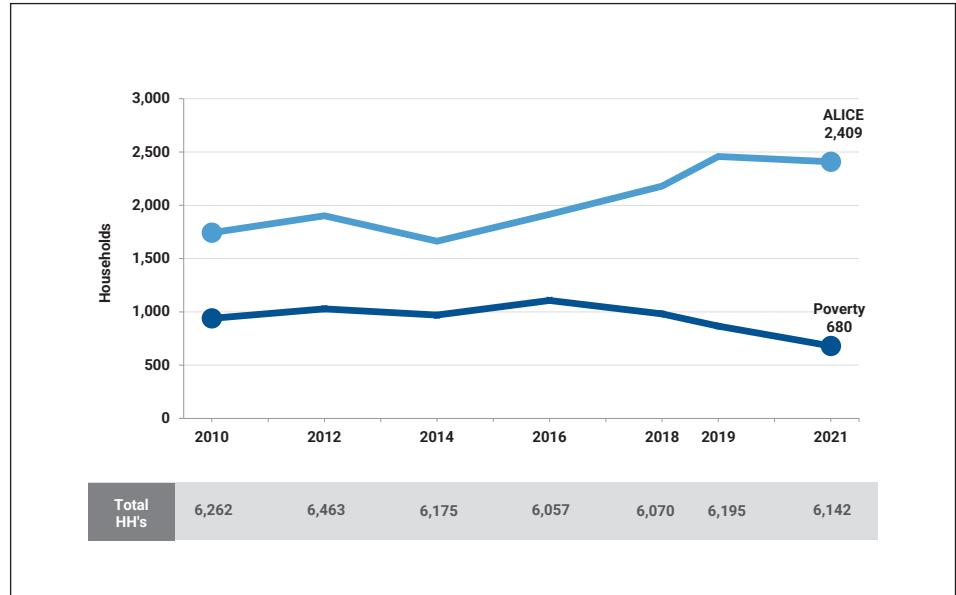

Population: 16,313 • **Number of Households:** 6,142 (-1% change from 2019)
Median Household Income: \$47,675 (state average: \$66,559)
Labor Force Participation Rate: 55.3% (state average: 62.9%)
ALICE Households: 39% (state average: 34%) • **Households in Poverty:** 11% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 3,324 households in Dade County were below the ALICE Threshold; in 2021 this number changed to 3,089.

Households by Income, Dade County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Dade County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Dougherty County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Dougherty County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

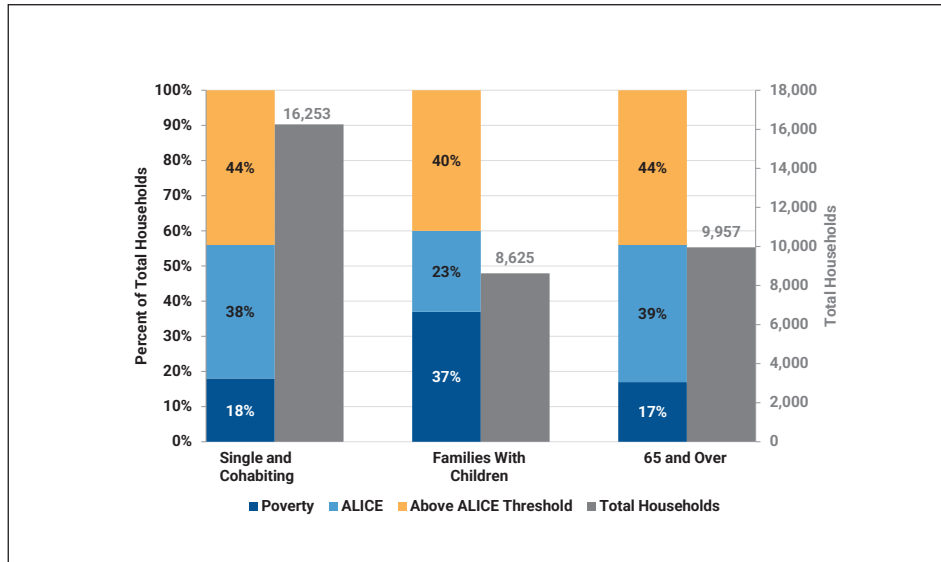

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

ALICE IN DOUGLAS COUNTY

2021 Point-in-Time Data

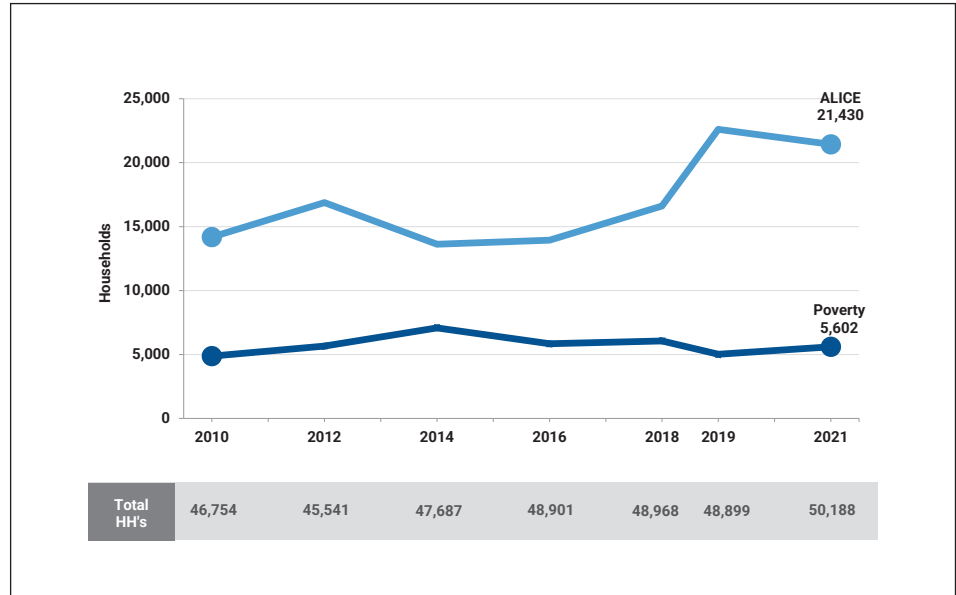

Population: 145,814 • **Number of Households:** 50,188 (3% change from 2019)
Median Household Income: \$65,046 (state average: \$66,559)
Labor Force Participation Rate: 64.3% (state average: 62.9%)
ALICE Households: 43% (state average: 34%) • **Households in Poverty:** 11% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 27,623 households in Douglas County were below the ALICE Threshold; in 2021 this number changed to 27,032.

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Data for counties with populations over 65,000 is 1-year estimates. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.

ALICE IN EVANS COUNTY

2021 Point-in-Time Data

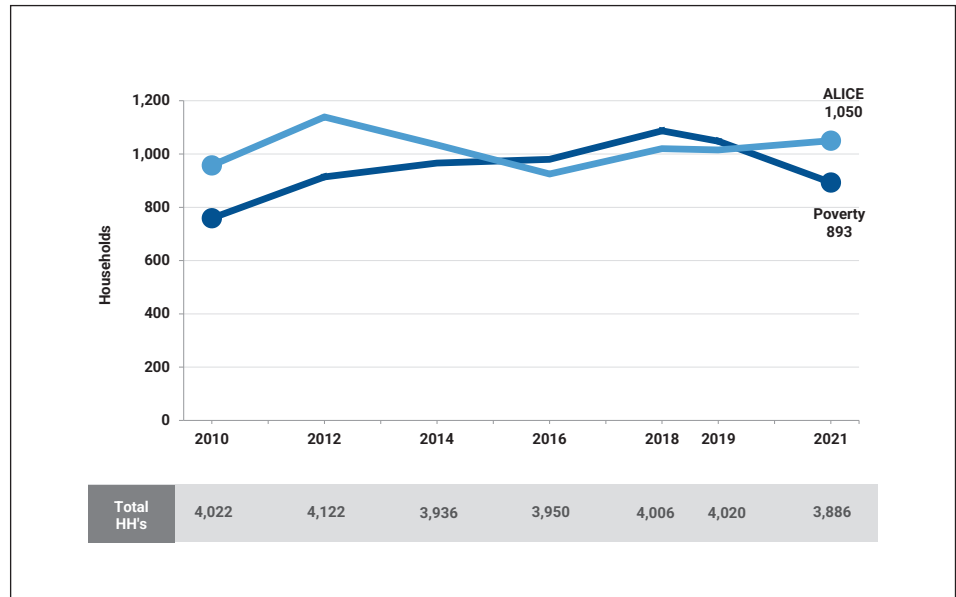

Population: 10,761 • **Number of Households:** 3,886 (-3% change from 2019)
Median Household Income: \$49,325 (state average: \$66,559)
Labor Force Participation Rate: 59.4% (state average: 62.9%)
ALICE Households: 27% (state average: 34%) • **Households in Poverty:** 23% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 2,063 households in Evans County were below the ALICE Threshold; in 2021 this number changed to 1,943.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Evans County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Evans County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

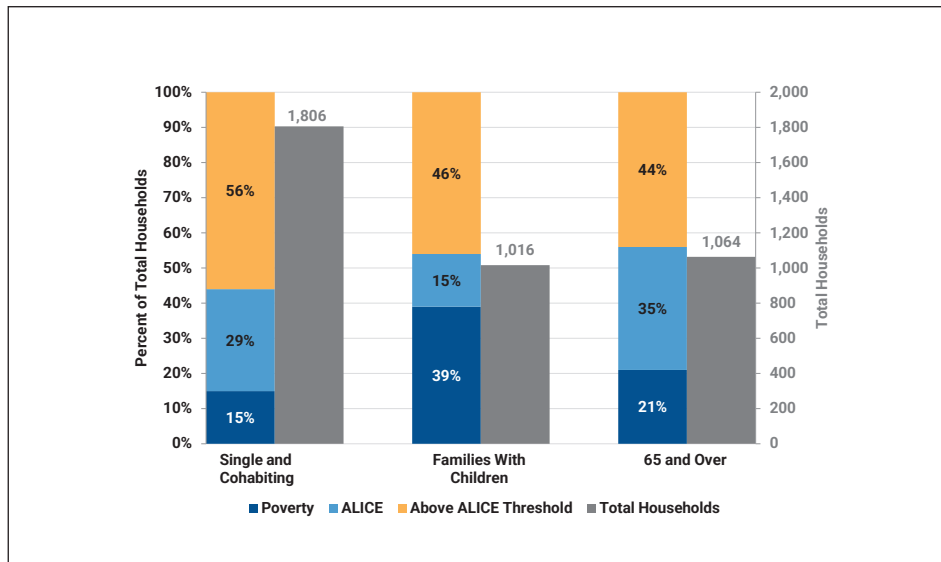

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

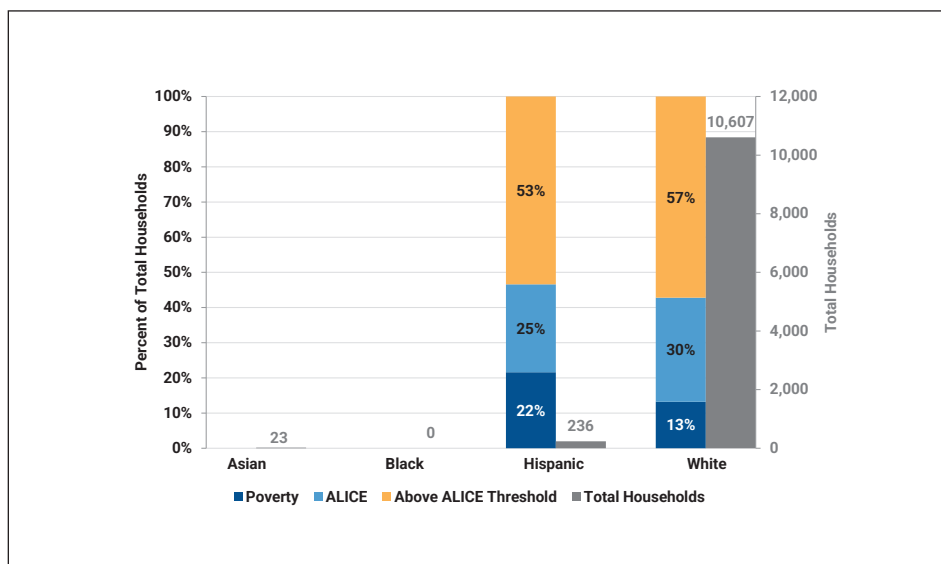

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Household Financial Status by Household Type, Fulton County, 2021

Sources: ALICE Threshold, 2021; American Community Survey, 2021

Household Financial Status by Race/Ethnicity, Fulton County, 2021

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

2021 Point-in-Time Data

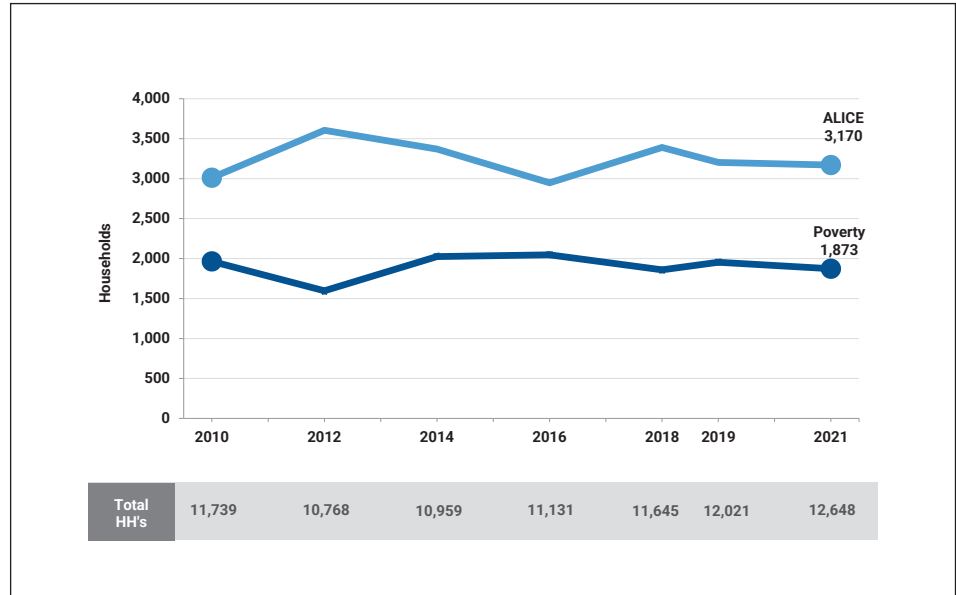

Population: 31,047 • **Number of Households:** 12,648 (5% change from 2019)
Median Household Income: \$60,504 (state average: \$66,559)
Labor Force Participation Rate: 51.9% (state average: 62.9%)
ALICE Households: 25% (state average: 34%) • **Households in Poverty:** 15% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 5,158 households in Gilmer County were below the ALICE Threshold; in 2021 this number changed to 5,043.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Gilmer County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mployed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 149,638 households in Gwinnett County were below the ALICE Threshold; in 2021 this number changed to 156,255.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Gwinnett County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Gwinnett County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

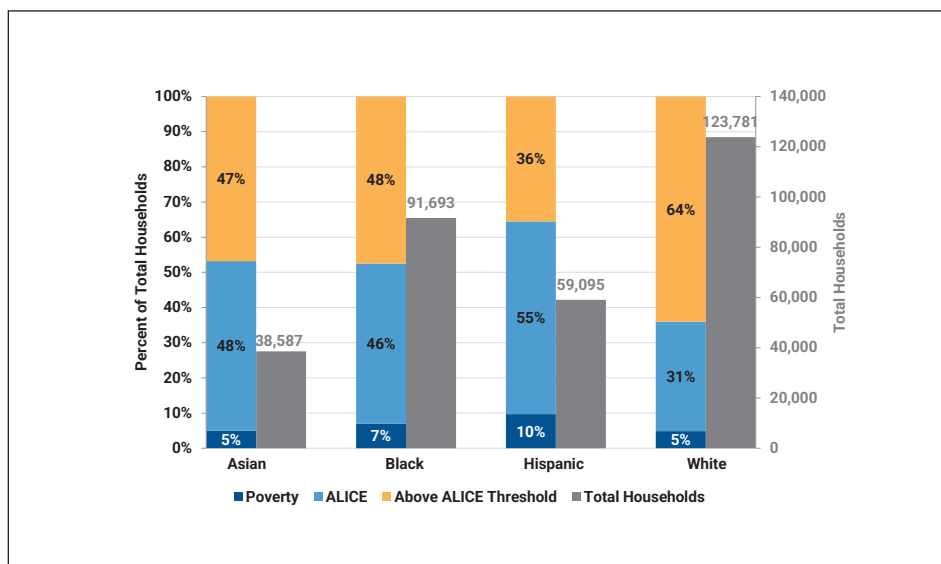

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Financial Hardship is Not Evenly Distributed

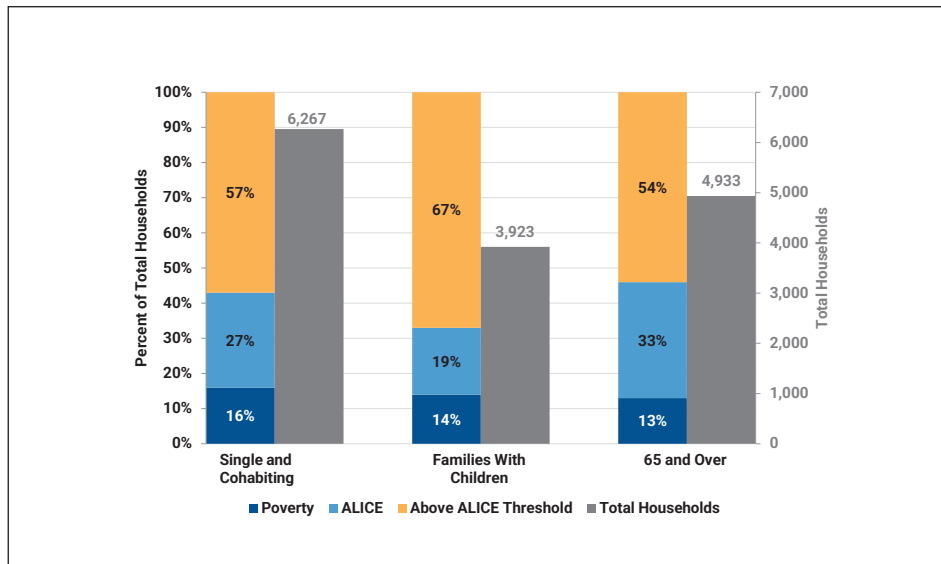

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Household Financial Status by Household Type, Hart County, 2021

Sources: ALICE Threshold, 2021; American Community Survey, 2021

Household Financial Status by Race/Ethnicity, Hart County, 2021

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

Hart County, 2021		
Town	Total Households	% ALICE & Poverty
Bowersville CCD	1,434	37%
Hartwell CCD	4,987	52%
Reed Creek CCD	2,427	44%
Royston CCD	1,263	47%

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Data for counties with populations over 65,000 is 1-year estimates. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.

2021 Point-in-Time Data

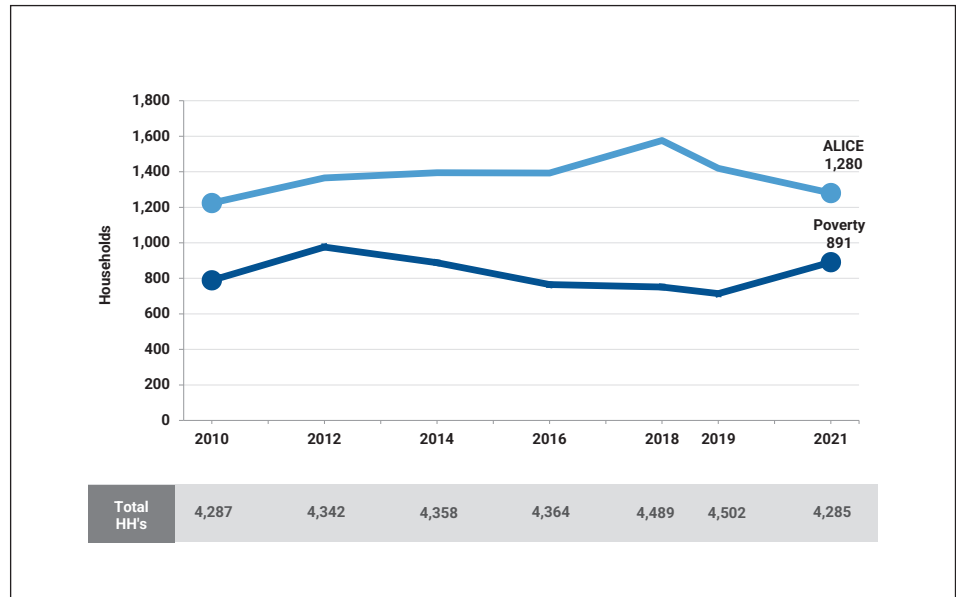

Population: 11,440 • **Number of Households:** 4,285 (-5% change from 2019)
Median Household Income: \$55,635 (state average: \$66,559)
Labor Force Participation Rate: 54.7% (state average: 62.9%)
ALICE Households: 30% (state average: 34%) • **Households in Poverty:** 21% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mployed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 2,133 households in Heard County were below the ALICE Threshold; in 2021 this number changed to 2,171.

Households by Income, Heard County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Heard County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Jeff Davis County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Jeff Davis County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

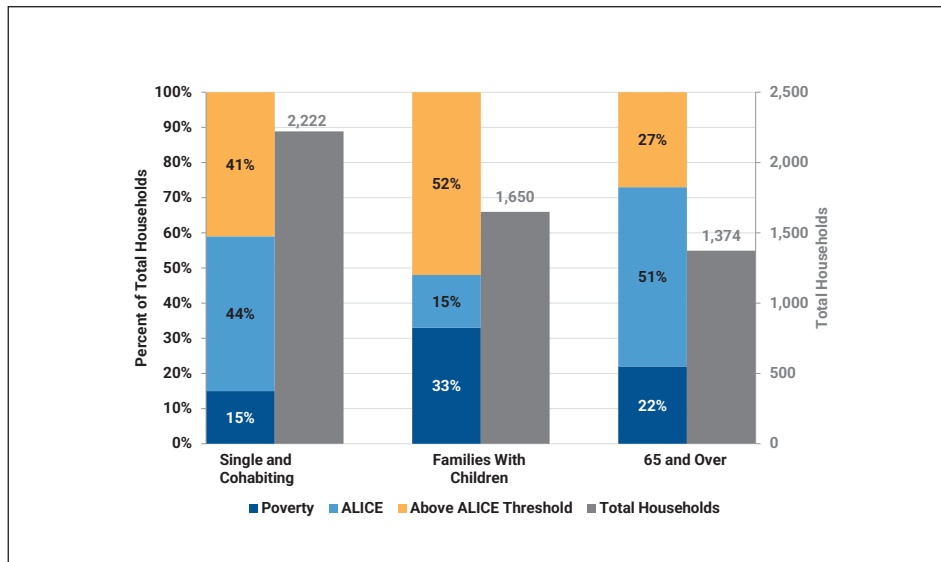

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

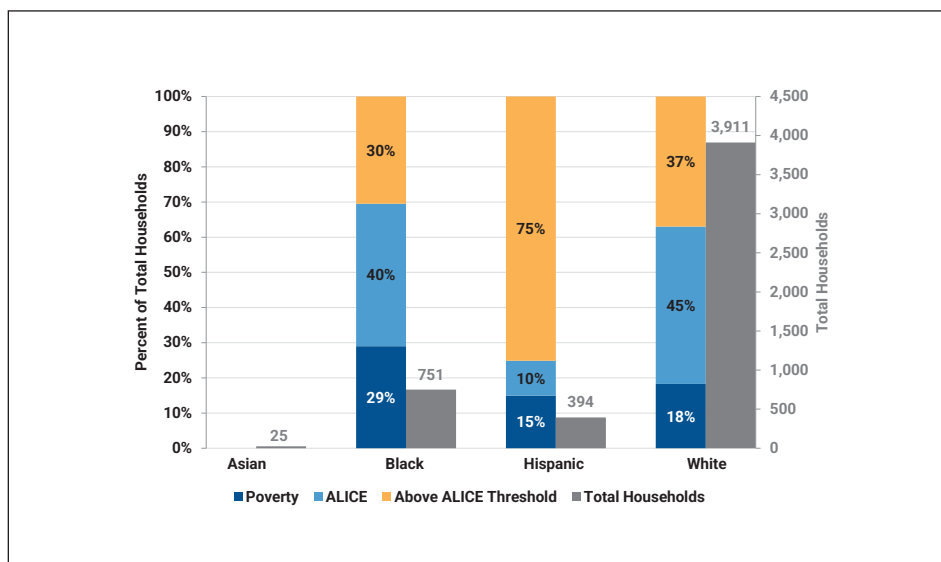

Jeff Davis County, 2021		
Town	Total Households	% ALICE & Poverty
Denton CCD	592	69%

ALICE IN JEFFERSON COUNTY

2021 Point-in-Time Data

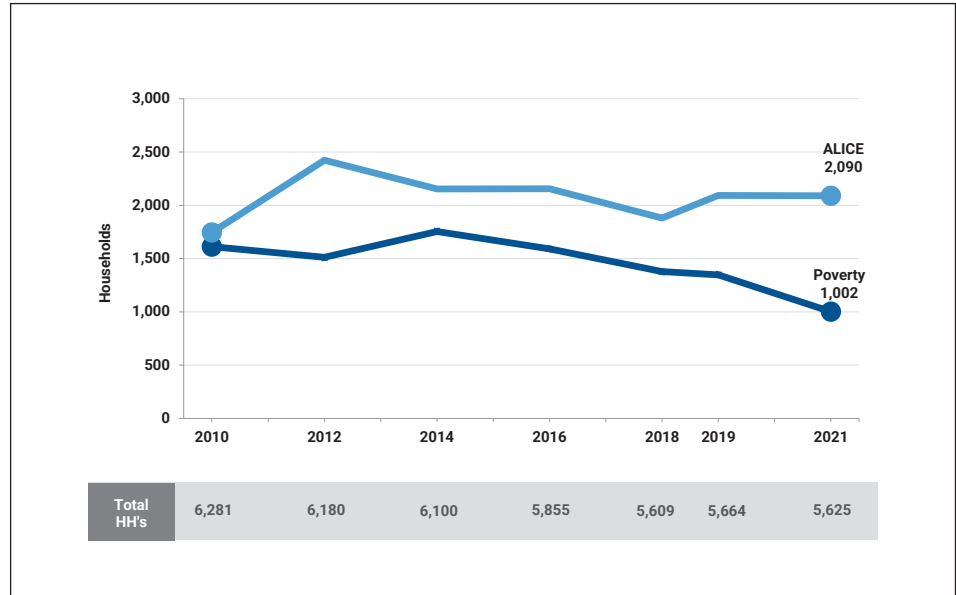

Population: 15,708 • **Number of Households:** 5,625 (-1% change from 2019)
Median Household Income: \$42,238 (state average: \$66,559)
Labor Force Participation Rate: 53.3% (state average: 62.9%)
ALICE Households: 37% (state average: 34%) • **Households in Poverty:** 18% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 3,440 households in Jefferson County were below the ALICE Threshold; in 2021 this number changed to 3,092.

ALICE Households: 32% (state average: 34%) • **Households in Poverty:** 25% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 9,599 households in Laurens County were below the ALICE Threshold; in 2021 this number changed to 9,809.

Households by Income, Laurens County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Laurens County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Laurens County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

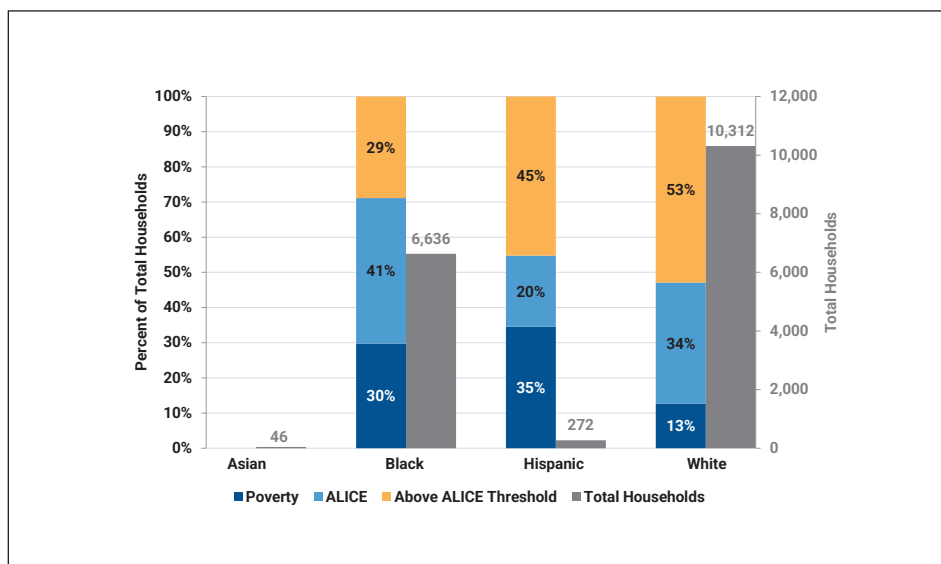

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

ALICE IN MACON COUNTY

2021 Point-in-Time Data

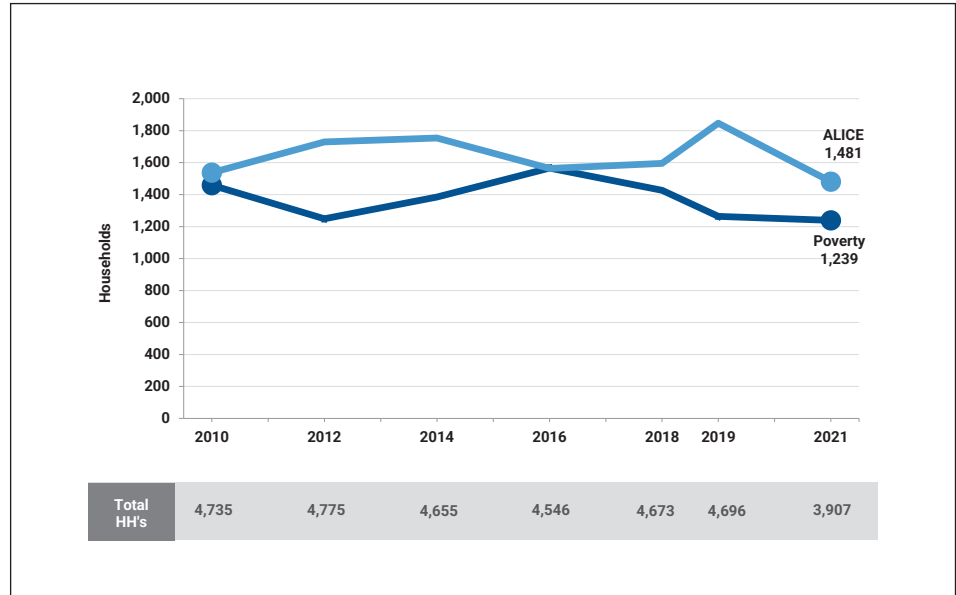

Population: 12,330 • **Number of Households:** 3,907 (-17% change from 2019)
Median Household Income: \$33,163 (state average: \$66,559)
Labor Force Participation Rate: 42.6% (state average: 62.9%)
ALICE Households: 38% (state average: 34%) • **Households in Poverty:** 32% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 3,111 households in Macon County were below the ALICE Threshold; in 2021 this number changed to 2,720.

Households by Income, Macon County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Macon County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Macon County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

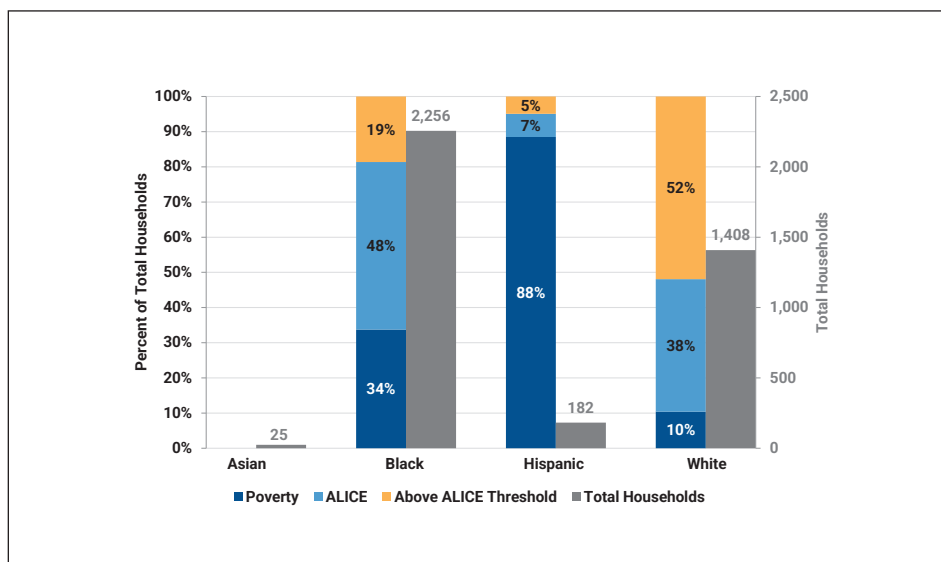

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

ALICE IN MITCHELL COUNTY

2021 Point-in-Time Data

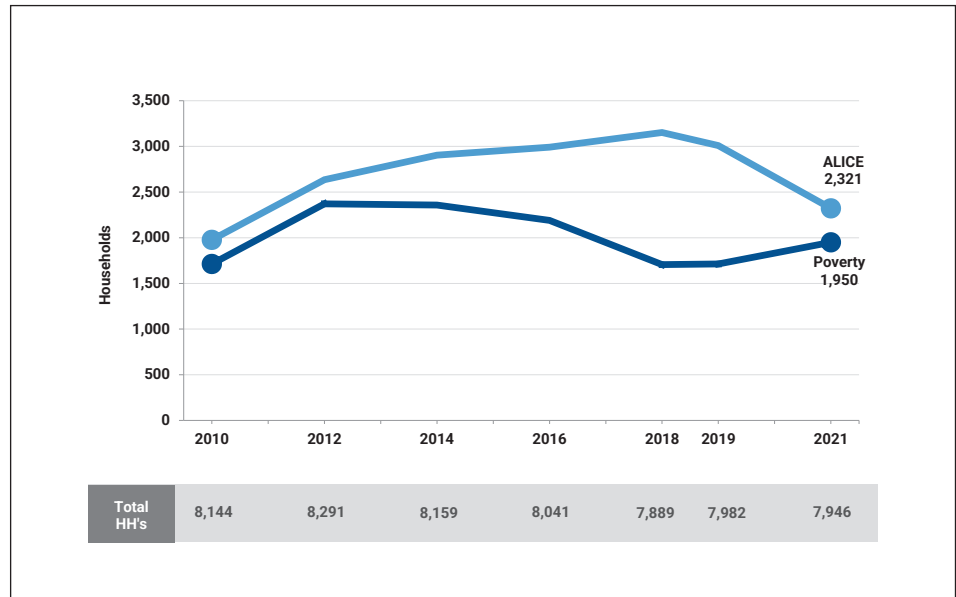

Population: 21,940 • **Number of Households:** 7,946 (0% change from 2019)
Median Household Income: \$43,427 (state average: \$66,559)
Labor Force Participation Rate: 51.5% (state average: 62.9%)
ALICE Households: 29% (state average: 34%) • **Households in Poverty:** 25% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 4,723 households in Mitchell County were below the ALICE Threshold; in 2021 this number changed to 4,271.

Median Household Income: \$75,589 (state average: \$66,559)
Labor Force Participation Rate: 67% (state average: 62.9%)
ALICE Households: 43% (state average: 34%) • **Households in Poverty:** 13% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 22,895 households in Newton County were below the ALICE Threshold; in 2021 this number changed to 22,244.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Newton County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

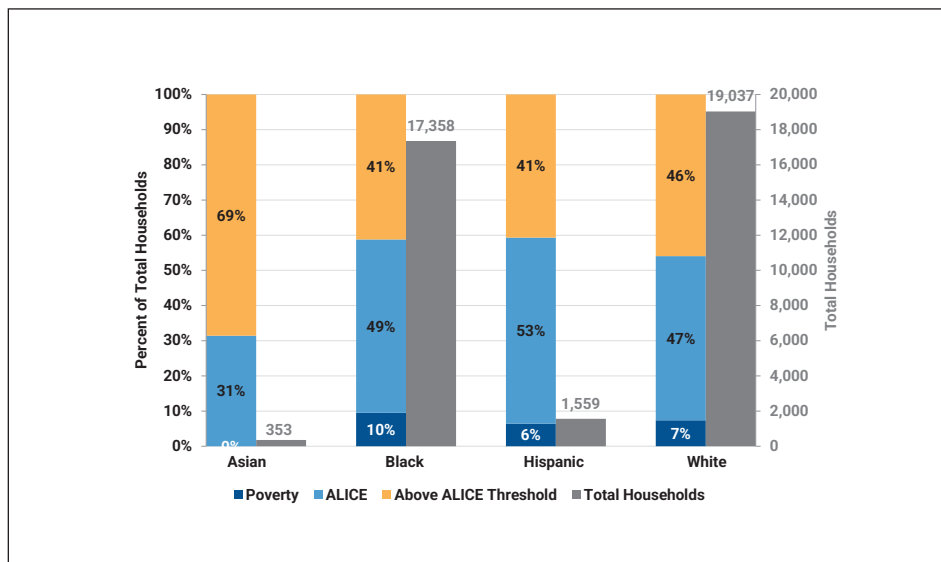

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Financial Hardship is Not Evenly Distributed

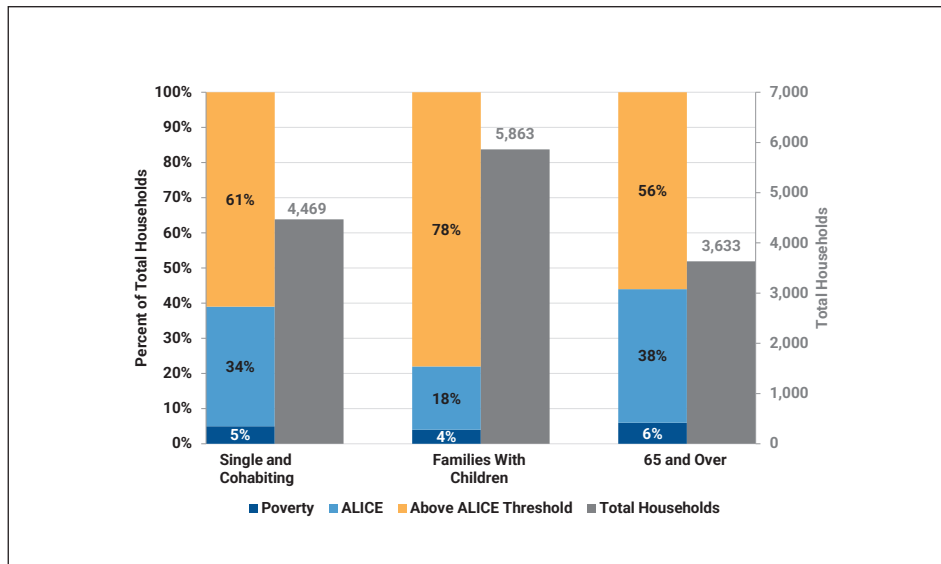

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Pierce County, 2021		
Town	Total Households	% ALICE & Poverty
Blackshear CCD	5,655	49%
Bristol CCD	510	41%
Patterson CCD	1,070	43%

Household Financial Status by Household Type, Pierce County, 2021

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Data for counties with populations over 65,000 is 1-year estimates. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.

ALICE IN PIKE COUNTY

2021 Point-in-Time Data

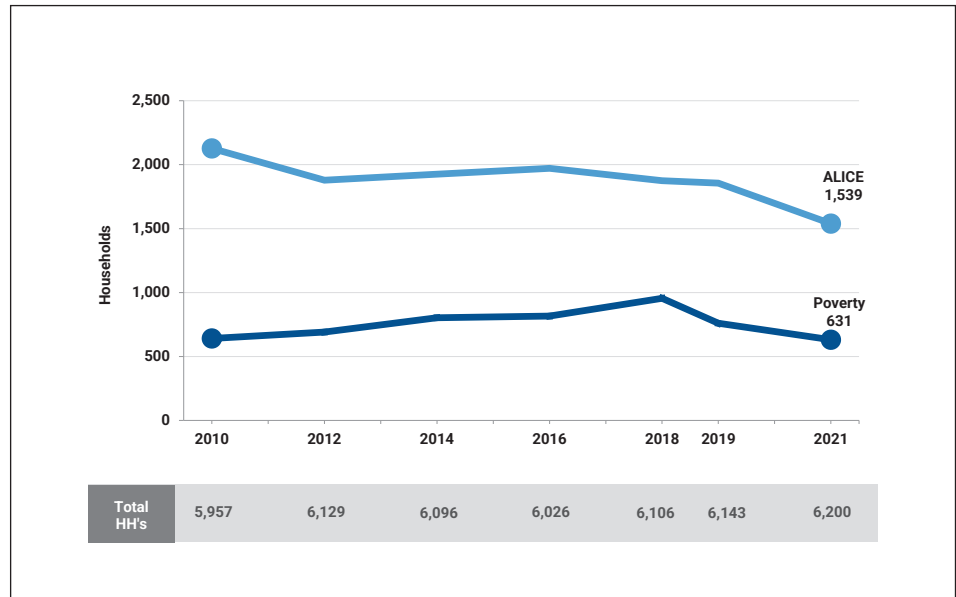

Population: 18,754 • **Number of Households:** 6,200 (1% change from 2019)
Median Household Income: \$76,152 (state average: \$66,559)
Labor Force Participation Rate: 58.3% (state average: 62.9%)
ALICE Households: 25% (state average: 34%) • **Households in Poverty:** 10% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 2,616 households in Pike County were below the ALICE Threshold; in 2021 this number changed to 2,170.

Households by Income, Pike County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Pike County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Pike County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

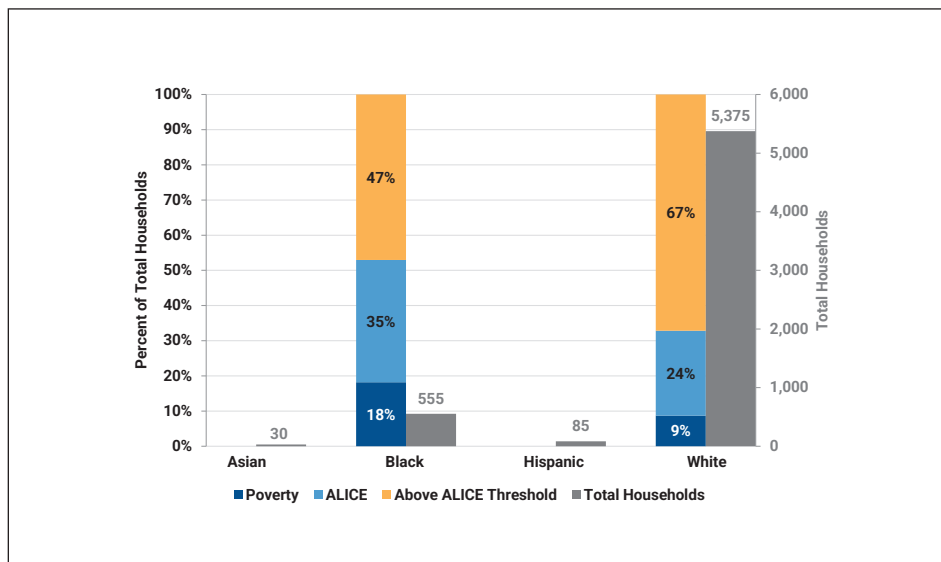

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

ALICE IN RICHMOND COUNTY

2021 Point-in-Time Data

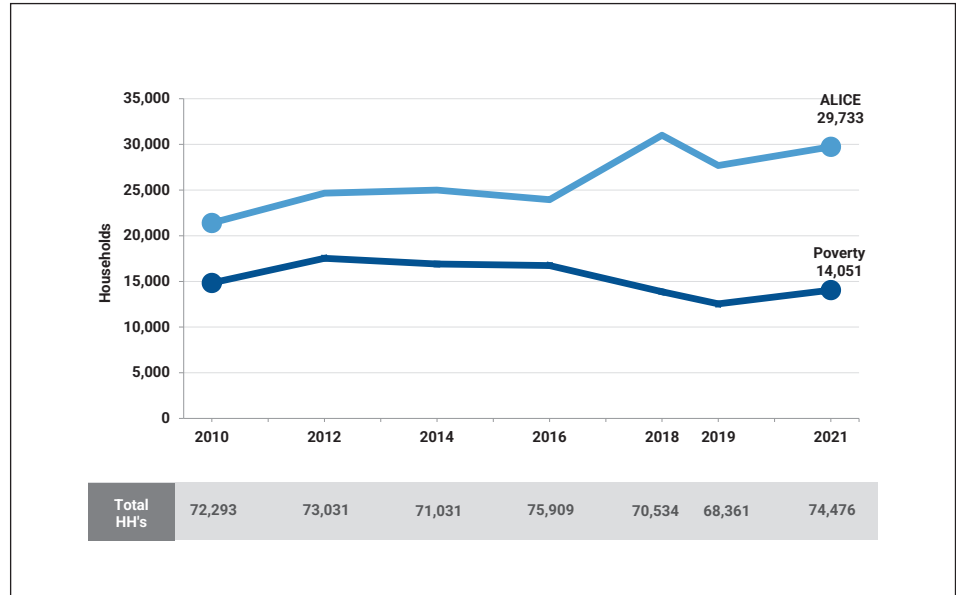

Population: 205,673 • **Number of Households:** 74,476 (9% change from 2019)
Median Household Income: \$48,048 (state average: \$66,559)
Labor Force Participation Rate: 63.5% (state average: 62.9%)
ALICE Households: 40% (state average: 34%) • **Households in Poverty:** 19% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 40,233 households in Richmond County were below the ALICE Threshold; in 2021 this number changed to 43,784.

2021 Point-in-Time Data

Population: 26,641 • **Number of Households:** 10,037 (5% change from 2019)
Median Household Income: \$50,194 (state average: \$66,559)
Labor Force Participation Rate: 56.4% (state average: 62.9%)
ALICE Households: 33% (state average: 34%) • **Households in Poverty:** 15% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 4,338 households in Stephens County were below the ALICE Threshold; in 2021 this number changed to 4,804.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Stephens County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Stephens County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

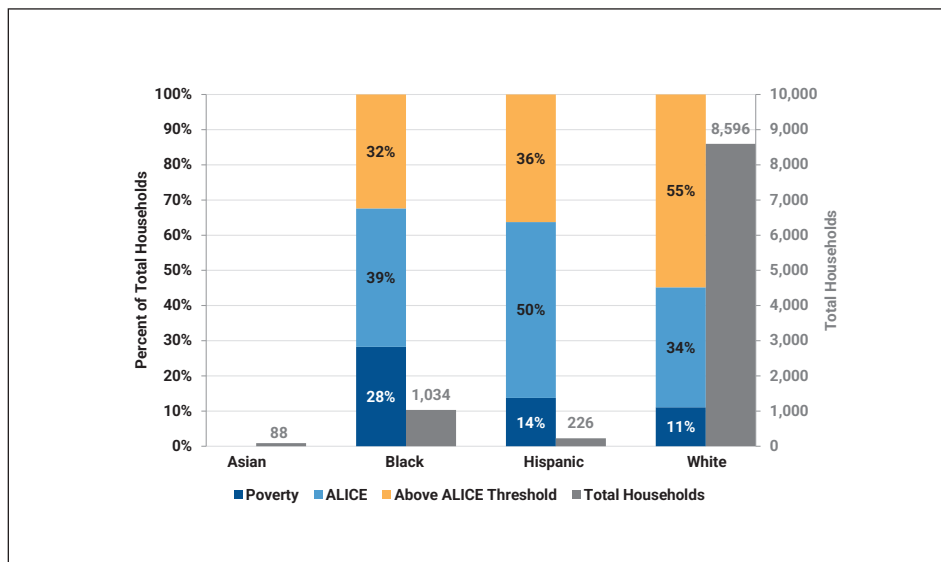

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Taylor County, 2021		
Town	Total Households	% ALICE & Poverty
Butler CCD	1,564	69%
Carsonville CCD	432	66%
Reynolds CCD	816	62%
Rupert CCD	284	89%

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Data for counties with populations over 65,000 is 1-year estimates. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.

2021 Point-in-Time Data

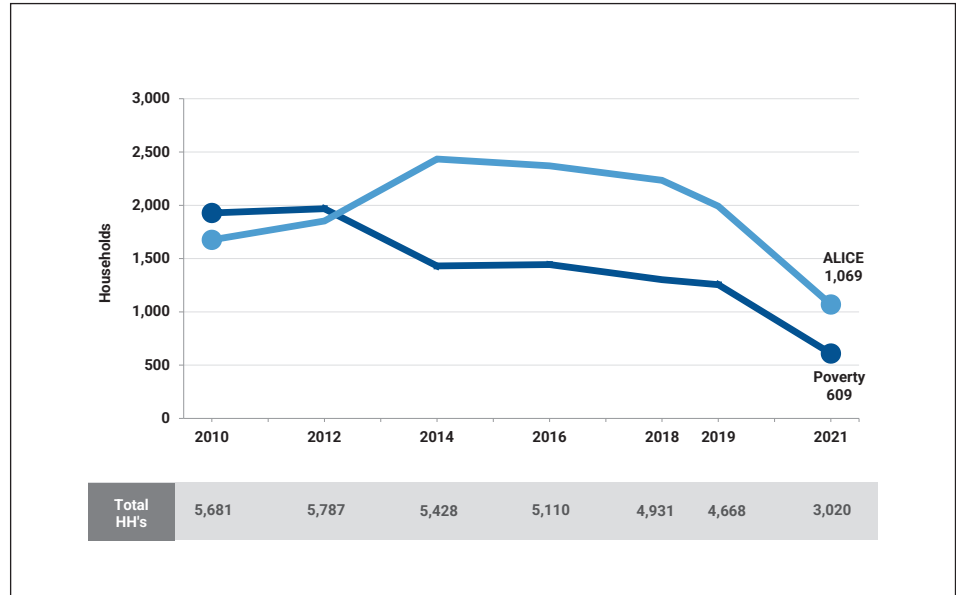

Population: 12,860 • **Number of Households:** 3,020 (-35% change from 2019)
Median Household Income: \$42,971 (state average: \$66,559)
Labor Force Participation Rate: 35.5% (state average: 62.9%)
ALICE Households: 35% (state average: 34%) • **Households in Poverty:** 20% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset **L**imited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 3,246 households in Telfair County were below the ALICE Threshold; in 2021 this number changed to 1,678.

Households by Income, Telfair County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Telfair County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in Telfair County, visit UnitedForALICE.org/Household-Budgets/Georgia

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

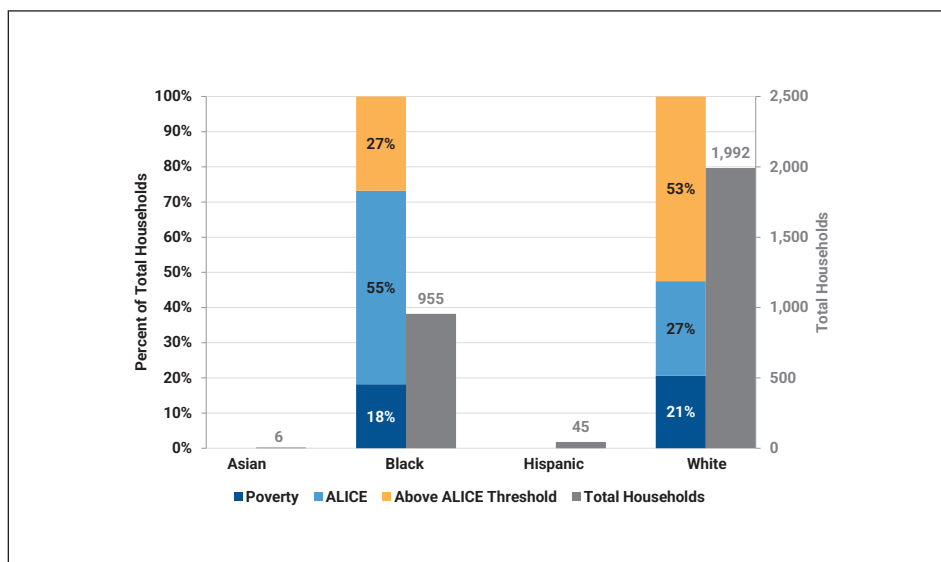

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Household Financial Status by Household Type, Treutlen County, 2021

Treutlen County, 2021		
Town	Total Households	% ALICE & Poverty
Gillis Springs CCD	521	49%
Soperton CCD	1,715	61%

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Data for counties with populations over 65,000 is 1-year estimates. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.

2021 Point-in-Time Data

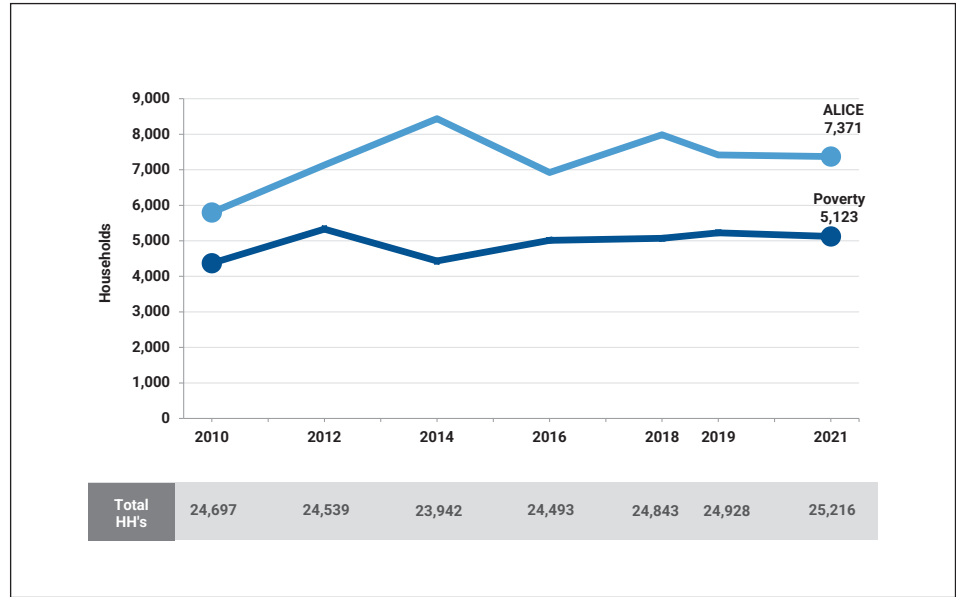

Population: 69,720 • **Number of Households:** 25,216 (1% change from 2019)
Median Household Income: \$49,187 (state average: \$66,559)
Labor Force Participation Rate: 59.7% (state average: 62.9%)
ALICE Households: 29% (state average: 34%) • **Households in Poverty:** 20% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome **C**onstrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 12,641 households in Troup County were below the ALICE Threshold; in 2021 this number changed to 12,494.

Households by Income, Troup County, 2010–2021

ALICE IN WALTON COUNTY

2021 Point-in-Time Data

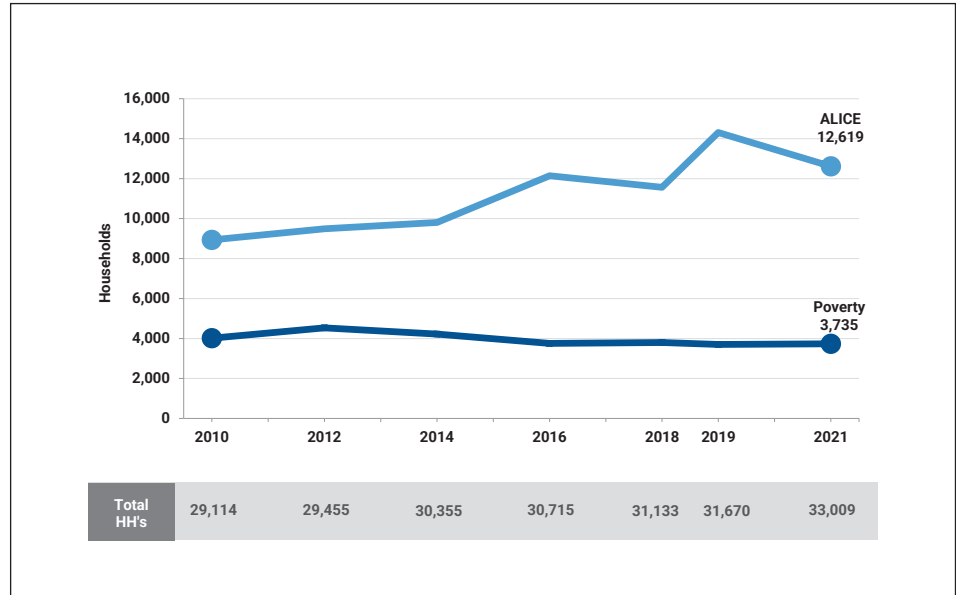

Population: 99,853 • **Number of Households:** 33,009 (4% change from 2019)
Median Household Income: \$73,151 (state average: \$66,559)
Labor Force Participation Rate: 60.8% (state average: 62.9%)
ALICE Households: 38% (state average: 34%) • **Households in Poverty:** 11% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 18,011 households in Walton County were below the ALICE Threshold; in 2021 this number changed to 16,354.

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in Walton County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

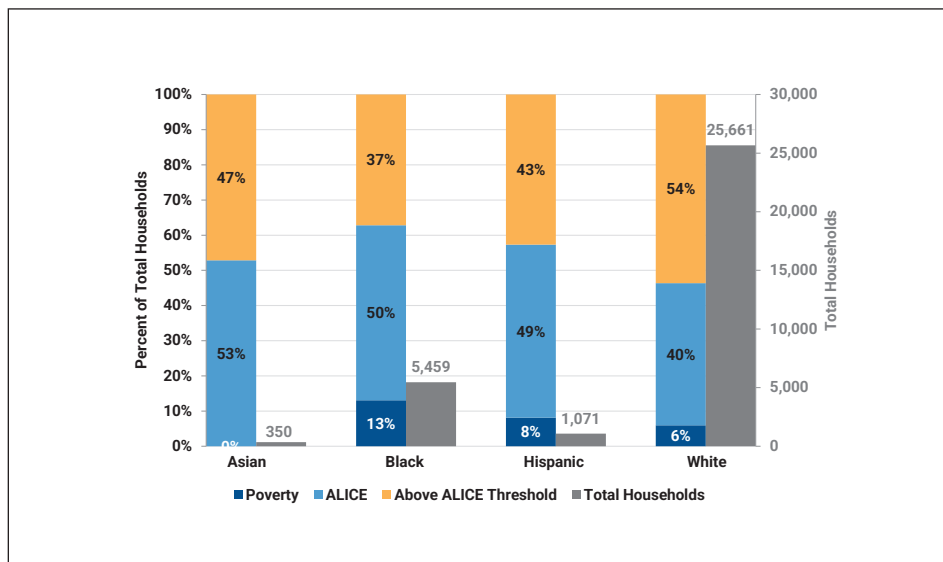

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Financial Hardship is Not Evenly Distributed

Groups with the largest number of households below the ALICE Threshold tend to also be the largest demographic groups. However, when looking at the percentage of each group that is below the ALICE Threshold, some groups are more likely to be ALICE than others.

By addressing the disparities in financial hardship by county demographics, community members can move toward more equitable solutions.

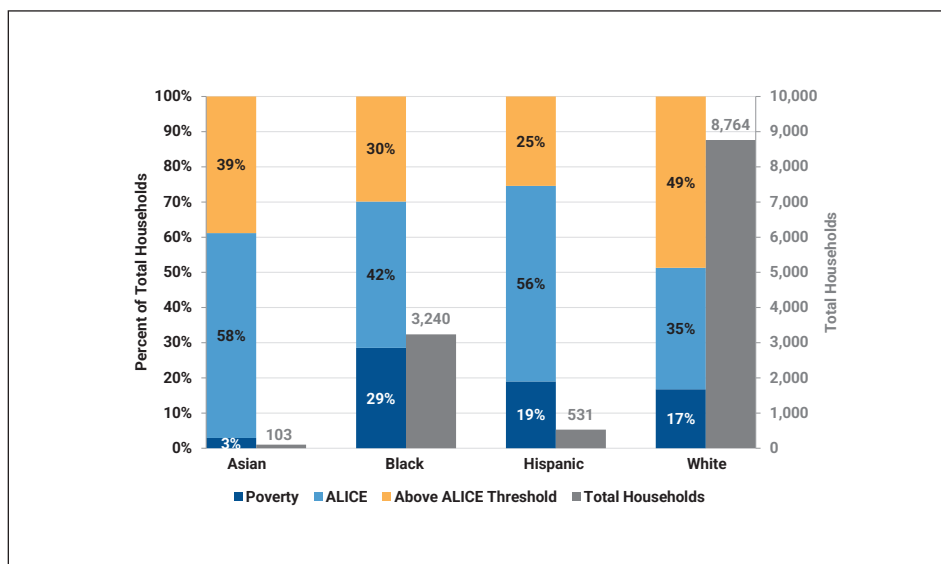

Visit UnitedForALICE.org/Georgia to view more national, state, and county data.

Wheeler County, 2021		
Town	Total Households	% ALICE & Poverty
Alamo CCD	819	79%
Glenwood CCD	707	73%

Household Financial Status by Household Type, Wheeler County, 2021

Sources: ALICE Threshold, 2021; American Community Survey, 2021

Household Financial Status by Race/Ethnicity, Wheeler County, 2021

Note: Asian, Black, and White racial categories are for one race alone. Race and Hispanic ethnicity are overlapping categories. The Asian and Black groups may include Hispanic households; the White group includes only White, non-Hispanic households. The Hispanic ethnic group may include households of any race.

Source: ALICE Threshold, 2021; American Community Survey, 2021

Note: Municipal-level data on this page is 5-year averages for Census County Subdivisions. Data for counties with populations over 65,000 is 1-year estimates. Geographies with fewer than 100 households are not included. Therefore, totals will not match the county-level numbers.

ALICE IN WHITE COUNTY

2021 Point-in-Time Data

Population: 27,886 • **Number of Households:** 10,251 (-12% change from 2019)

Median Household Income: \$64,729 (state average: \$66,559)

Labor Force Participation Rate: 55.3% (state average: 62.9%)

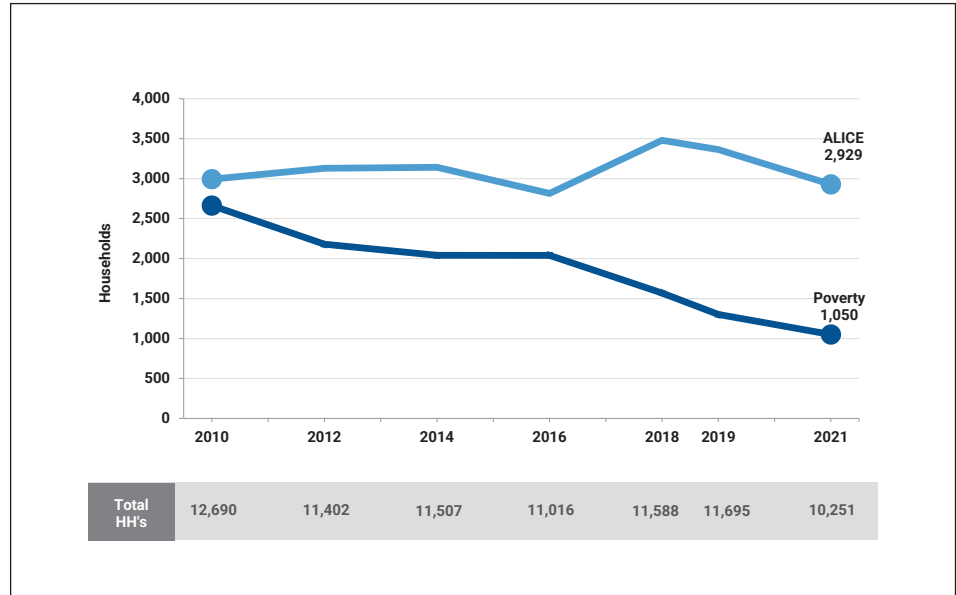

ALICE Households: 29% (state average: 34%) • **Households in Poverty:** 10% (state average: 14%)

Financial Hardship Changes Over Time

ALICE is an acronym for **A**sset Limited, **I**ncome Constrained, **E**mloyed – households that earn more than the Federal Poverty Level, but less than the basic cost of living for the county (the ALICE Threshold). Households below the ALICE Threshold – ALICE households plus those in poverty – can't afford the essentials.

As circumstances change, households may find themselves below or above the ALICE Threshold at different times. While the COVID-19 pandemic brought employment shifts, health struggles, and school/business closures in 2021, it also spurred unprecedented public assistance through pandemic relief measures. In 2019, 4,665 households in White County were below the ALICE Threshold; in 2021 this number changed to 3,979.

Households by Income, White County, 2010–2021

The Cost of Basics Outpaces Wages

The Household Survival Budget reflects the minimum cost to live and work in the modern economy and includes housing, child care, food, transportation, health care, a smartphone plan, and taxes. It does not include savings for emergencies or future goals like college or retirement. The Household Survival Budget is calculated at the county level and by household composition, as costs can vary greatly depending on location and household needs.

In 2021, household costs in White County were well above the Federal Poverty Level of \$12,880 for a single adult and \$26,500 for a family of four.

To see costs for different household compositions in White County, visit UnitedForALICE.org/Household-Budgets/Georgia
